Erie Insurance is a Fortune 500, multi-billion-dollar company headquartered in Erie, PA, and an anchor institution in the region. In 2010, Erie significantly expanded their business and market, requiring major development of their home office campus, and providing revitalization of the adjacent downtown area.

Nepkin began our relationship with Erie as a member of the design team, however after quickly demonstrating our broad capabilities we were invited to assist with a variety of core IT initiatives. This started with a complete IT assessment and strategy development. Today Nepkin has multiple project managers working alongside IT to aid with the delivery of core IT initiatives.

SERVICES AVAILABLE
